

A NEW TOOLBOX TO HELP YOU PROTECT AND IMPROVE YOUR LAKE – *without the cost of a consultant and lake management plan!*

Imagine that you could:

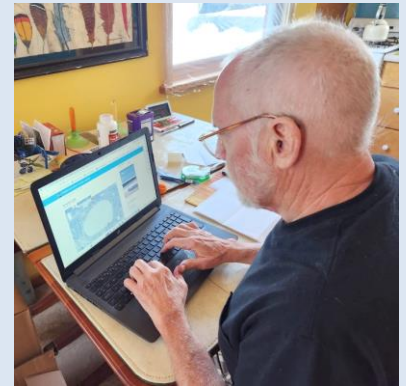

Assess conditions that affect your lake

Identify threats to water quality, habitat and properties

Present steps property owners can take for lake protection

Customize a "take action" plan for your lake

Let us show you how, using public data that already exists
and 100 years of professional expertise on Wisconsin Lakes!

Presenters:

Dr. Mike Meyer, Wisconsin's Green Fire Scientist
(current); WDNR Scientist (retired)

Jim Kreitlow, WDNR Lake Biologist Northern WI
lakes (retired)

Patrick Goggin - UW Extension Lakes Program
(retired)

Wisconsin's Green Fire offers two free
workshops* for leaders and members of lake
associations in Vilas and Oneida Counties.

Topics include:

- Basic lake ecology & management
- Where to find data on your lake
- How to identify action strategies that
make a difference

Vilas County Workshop

Dates September 10 & 12

Kemp Station, Lake Tomahawk

Oneida County Workshop

Dates October 1 & 3

Kemp Station, Lake Tomahawk
